Summary

Full Stack Developer skilled in MERN stack, UI/UX design, applied AI/ML, and DevOps practices. Experienced in building web apps, training ML models, performing testing, and delivering efficient, user-friendly solutions.

Technical Skills

- Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs
- **UI/UX Design:** Figma (wireframing, prototyping), Responsive Design, Webflow
- **AI & ML:** NLP, Supervised Learning, Scikit-learn, Model Training & Evaluation
- **Programming:** C++, C#, Python
- **Database:** SQL, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code
- **Soft Skills:** Collaboration, Communication, Problem Solving

Projects

HomeEase-Mobile App ([Github Link](#))

May 2025 - Present

- Built a cross-platform mobile app connecting customers, providers, and admins with features like service booking, scheduling, reviews, and earnings tracking.
- Developed RESTful APIs using Node.js and MongoDB for smooth communication and secure authentication.
- Integrated AI features including personalized service recommendations and a customer-assistance chatbot.

Dry Fruit Admin Panel (MERN Stack) ([Github Link](#))

Nov 2024- Dec 2024

- Developed a full-stack admin dashboard using the MERN stack, featuring product, user, and sales management with reusable components, secure APIs, and a fully responsive interface.

Movie Genre Detection (Deep Learning)([Github Link](#))

May 2025-June 2025

- Built a trailer-based movie genre classifier using YouTube videos; fine-tuned ResNet50 on extracted frames and used semi-supervised labeling (ResNet50 + K-means). Implemented full ML pipeline including data collection, preprocessing, training, and evaluation.

Sign Language Digit Recognition (CNN)([Github Link](#))

Sep 2025-Oct 2025

- Built a CNN-based hand sign digit recognition system using image classification techniques. Trained and evaluated deep learning models on labeled gesture datasets with preprocessing and augmentation for improved accuracy.

Experience

Web Development Intern | Internboot ([Linkedin](#))

Oct 2025-Dec 2025

Completed a 3-month online internship developing web solutions, applying modern technologies, collaborating remotely, and successfully delivering assigned projects while maintaining professional work ethics and confidentiality.

Data Analyst Intern | Internboot ([Linkedin](#))

Jun 2025-Aug 2025

Completed a 3-month Data Analytics internship focused on data cleaning, visualization, reporting, and analytical problem-solving, earning an "A" Grade Certificate of Completion.

Education

FAST National University of Computer & Emerging Sciences, Isb.

Aug 2022- Present

BS Software Engineering

FSc Pre-Engineering

Murray College, Sialkot — Score: 89.9%
